

SAMPLE ~ EVALUATION TASKS

How might we help you with your evaluation? Here are some specific tasks **envision** might carry out with or for you:

- Conceptualize the study – what questions do you want to answer; how will you collect information
- Create a logic model or theory of change
- Assess and review your organizational functioning
- Design questionnaires, interview questions/protocols
- Craft focus group questions
- Analyze data using appropriate statistics
- Facilitate focus groups
- Visualize patterns in the data (data visualization)
- Conduct needs assessments
- Analyze organizational structures
- Lead workshops where you can grapple with the meaning of the results
- Visually capture the results from the evaluation

envision SYNERGY is dedicated to the uncompromising advancement of a healthy planet with happy, thriving people. Because these complex challenges span jurisdictional boundaries, cross sectoral lines and require diverse expertise, working together is the way forward. **envision** catalyzes collaboration across silos, organizations, jurisdictions, sectors, and academic backgrounds, resulting in innovative, durable solutions that foster systems thinking and bridge organizational boundaries. Along the way, we build strong organizations that can both effectively carry out their work and are well-poised for effective collaboration.

As experienced collaboration and *facilitation* whizzes, we work at the intersection of outstanding group *process*, *visual thinking*, and *building a group's capacity* to collaborate and *evaluate* their work so they are even more effective over time.
